

### Bleaching for life contract

You are being offered our bleaching for life program because you have become a new patient in our office or you have referred someone as a new patient to our office. The terms of the bleaching for life are as follows:

- 1) We will take impressions and construct bleaching trays for you following completion of your new patient examination, cleaning and radiographs and or transfer of appropriate records from a previous office.
- 2) You will receive bleaching trays along with 4 tubes of take home bleach. This is enough for approximately six days of treatments if used properly.
- 3) If you require additional bleaching product, or require desensitizing gel to complete your treatment, you will be charged our regular fees.
- 4) If you maintain your regular cleanings with us within one month of their regularly recommended interval, you will receive an additional tube of bleach to renew your whitening.
- 5) If you do not maintain your regularly scheduled maintenance appointments with our office, you may buy back into the program for \$49 upon your renewal as a patient.
- 6) If you lose your trays, we will construct you new ones for \$50.
